Plainfield, VT 05667

Re: East Montpelier Access Permits #16-045 & 16-046

Dear Ms. Taylor:

The East Montpelier Selectboard met on Monday, September 19, 2016, and approved both the requested residential curb cut on Chickering Road (#16-045) and the associated work in the public right-of-way request (#16-046). As a part of the issuance of Access Permit #16-045, the previous access (curb cut) permits on your property (#08-064 & 08-065) are revoked. If you have questions on the construction conditions contained in the approvals, please contact Road Foreman Mike Garand at (802) 223-5870.

Please understand that the access (curb cut) permit only gives town permission to construct a residential access to your now-consolidated parcel along Chickering Road. Additional town & state permits will be necessary for any development of your lot. I'll also need to issue an E-911 number (a street address) for the property. The E-911 numbers issued to benefit the previous building permits on the property (265 & 335 Chickering Road) will be eliminated. Please contact me when you're ready for the next step.

Sincerely,

C. Bruce Johnson
East Montpelier Town & Zoning Administrator

Permit # 16-045

ACCESS (CURB CUT) APPLICATION

Date Received: 9/8/16

Road Foreman Determination:

Proposed access meets applicable sight distance standards. Comments: _____

Road Foreman Recommendations:

Driveway is approved NO
Dive culvert is needed. Please
grade driveway so NO water
is coming into checkerboard road

Culvert/Drainage Requirements:

Roadway Culverts – 18” minimum diameter of metal, reinforced concrete, or polyethylene pipe with drop inlets or catch basins as required. Hydraulic Analysis to determine appropriate pipe diameter is recommended for all live stream crossings and elsewhere where large storm flows may be expected. See VTrans Standard A-76.

Driveway Culverts – Circular drainage culverts shall have a minimum inside cross-sectional area equivalent to that provided by a 15” circular pipe. See VTrans Standard B-71.

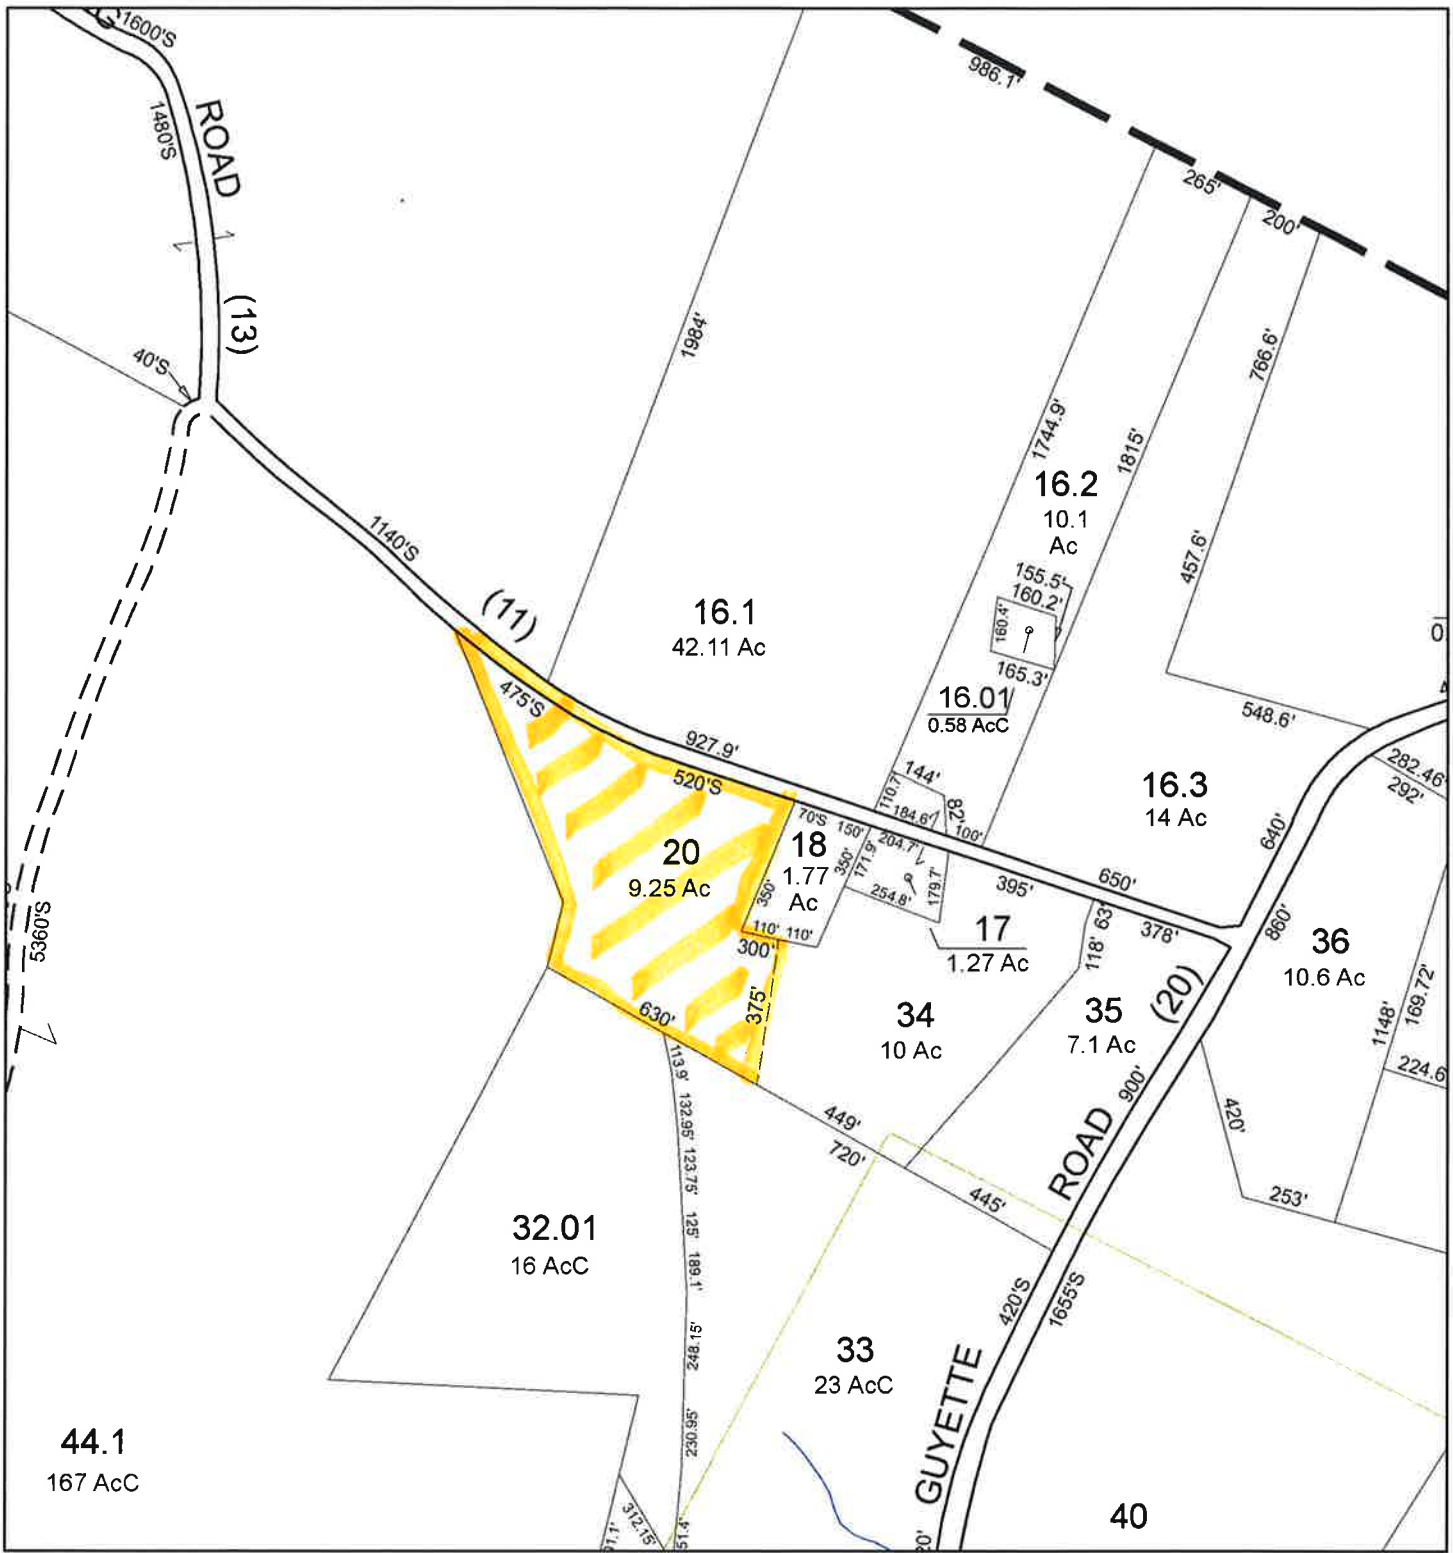

Underdrains – 6” minimum diameter of metal, PVC plastic or polyethylene pipe.

Mike Bernard
Road Foreman
