Approximately 265 residents were in attendance.

Moderator Duane called the Town Meeting of 2017 to order at 11:22 AM, after a brief break following the School Meeting. ARTICLE 2: To hear the reports of several Town Officers and to act thereon

Selectboard Chair Seth Gardner began with the review of Selectboard's report on page 12 of the Town report. He began by citing 2016 as a year of much upheaval politically at all levels and locally with our conservation program, but felt that all the factors existed for consensus building and healing to begin on both fronts. He acknowledged the resignation of long time Town Clerk Terri Conti, thanked her for her years of service and urged any townsfolk who were interested to reach out, to contact her.

Chair Gardner then touched on the dissolution of the Fire District #1 due to the failure to reach agreement with the Crystal Springs company. He thanked the Charter Committee for all their work on the proposed Charter Amendments being voted on by Australian Ballot. He also lauded the fine work being done by the Planning Commission on the Village Master Plan, and the Village Committee on the Sidewalk Project, which is now in the Right of Way process, and the presentation of potential uses of the "Old LaPerle Farm" property. He also confirmed that the Village Park-and-Ride project was ready to go out for bid.

The Route 14 Bridge replacement project is now completely in the hands of the State, he informed the assemblage. There is scheduled work for the summer and fall of 2017 and all of 2018. There is now a final, expected completion date of 2019, with a minimum of road closure (to be determined by the state) and the bulk of the work being done at night. He briefly mentioned pending road improvements as well as the scheduled retirement of Road Foreman Mike Garand, who agreed to work past the summertime deadline if necessary, until a suitable replacement for his position could be hired and trained.

Chair Gardner went on to praise the diligence of our road crew on the maintenance of the roads. He expressed satisfaction on behalf of the town, for the successful renovation of the Fire Station which led to better storage availability for highway equipment. He also stated his pleasure with the truck purchases that the Murray Road grant funded culvert replacement project will happen this summer.

Regarding the upcoming FY2018 budget, Chair Gardner reiterated the board's efforts to provide all necessary services without unduly burdening the taxpayers. The Selectboard continues to maintain the budget with only a slight increase, which allows for slow, sustainable growth. The General Budget shows a 0.7% increase, despite significant increases in Health Insurance costs and Ambulance Services.

Finally, Chair Gardner acknowledged all of the volunteers whose hard and heartfelt work brought so much life and community to our town. He remarked on the resignation of longtime Selectboard member Casey Northrup and took a moment to welcome new Town Clerk, CJ Flynn.

Moderator Duane asked for any questions.

Moderator Duane read the Article and inquired for motion to discuss. Motion and second received.

Several concerns were expressed by various citizens. The Conservation Fund Advisory Committee was concerned that they were making decisions based upon outdated data, and so reassessed their goals and program guidelines. It was pointed out that minimizing available land raises land prices, and that land development overtaxes services but increases enrollment. The Conservation Fund Advisory Committee Chair read a statement stressing the committee's desire to coordinate their efforts with the Town Plan.

When asked what their goals were, going forward, they highlighted retaining natural sites, preserving farm land and farming or dairies, and preserving rural life styles. They stated that conservation raises the costs of schools but lowers land costs.

When asked about how much say the town has regarding conservation, the response was that conservation breeds creativity. Committee members were reminded by the crowd that property is only valued when someone is preparing to sell it. It was stressed to the gathering that East Montpelier values the land for trails and welcomes and embraces design suggestions regarding roadsides, trails and wildlife concerns from the public, which in turn attracts young families.

The subject of GMO Corn was brought up and highlighted as a growing issue that warrants our increasing attention, as materials rinsing off our corn crops are getting into the water table and thus into the ground water.

Finally, the Committee stressed that they have made every effort to work with the Planning Commission.

It was moved and seconded that any discussion or vote would be based on the amended language of the copies that were handed out. He read the Article and inquired for motion to discuss. Motion and second received.

The Town of East Montpelier will direct employees not to inquire into any resident's immigration status or religious affiliation as part of their official duties and not to dedicate any time or resources to:

1) Providing a state or federal agency with information that would not otherwise be available to the public; or,

2) Assistance in enforcing federal immigration policy.

The residents of East Montpelier accept, welcome, and will support immigrants.

Moderator Duane informed the crowd that the original article had been brought to the Selectboard in November. Since then there had been a great deal of political posturing, culminating in the newly elected governor's statement that Vermont "is not a sanctuary state". Since there was no legal precedent to use as a guide, the original was drafted based on similar legislation passed by neighboring towns. However, some guidance was provided right before Town Meeting, and this was the blueprint for the modified language used. No further discussion or questions were forthcoming, although the Selectboard did receive a thank you from the crowd for their work on this policy. The Moderator asked for and received a motion with a second to vote. Most voted in favor, and Moderator declared Article 18 adopted.

ARTICLE 19: To transact any other business that may properly come before the meeting

The Energy Committee has been re-instated and a sign-up sheet was provided to encourage new members to join and participate.

It read: The following motion highlights the efforts already underway in the Vermont State legislature (H. 243 and S. 77) and in the U.S. Congress (S. 26). Here is the proposed motion:

"The citizens of East Montpelier, Vermont support the efforts of our state and federal legislators to enact legislation that would require the disclosure of federal tax returns before a presidential candidate's name can be placed on the primary and general election ballots; and, upon passage, we direct the Select Board to convey the result of the vote to our elected state and federal representatives."

It was suggested and agreed that since this was a Friendly Motion, that a semi-colon be added to divide the two statements into one unified thought. This was agreed to and implemented (see above). With no further discussion or questions, the Moderator asked for and received motion with a second to vote. All voted in favor, and Moderator declared the motion adopted.

Moderator Duane asked for and received a motion and second to adjourn. All voted in favor and Moderator declared Town Meeting 2017 adjourned at 02:15 PM.
