

Land Conservation Summit

Monday, October 10, 2016

7:00 – 9:00 pm

**At the Emergency Services Facility
(the new fire station; 54 Village Acres)**

The Selectboard invites all interested townspeople to join us for a forum focused on town goals for land conservation and more affordable housing, and how we might achieve the goals. This facilitated discussion, led by Cindy Cook of Adamant Accord, will have representatives from state and local housing agencies, land conservation organizations, and trails groups, along with numerous town board and committee members taking part in the discussion.

Please join us for what should be both a lively evening of discussion and a first step toward the creation of a next generation land conservation program.

Refreshments will be served!
