October 29, 2013

To the Selectboard and Management  
Town of East Montpelier  
East Montpelier, Vermont

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Town of East Montpelier as of and for the year ended June 30, 2013 and have issued our report thereon dated October 29, 2013. Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards and *Government Auditing Standards*, as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter to you dated April 30, 2013. Professional standards also require that we communicate to you the following information related to our audit.

## Significant Audit Findings

### *Qualitative Aspects of Accounting Practices*

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by the Town of East Montpelier are described in Note 1 to the financial statements. In July of 2012, the Town implemented GASB Statement No. 63, *Financial Reporting of Deferred Outflows of Resources, Deferred Inflow of Resources, and Net Position* and the applications of existing policies were not changed during the year. We noted no transactions entered into by the governmental unit during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. The most sensitive estimate affecting Town of East Montpelier's financial statements was:

- Management's estimate of the depreciation is based on estimated useful lives of the assets. We evaluated the key factors and assumptions used and determined that the estimate used is reasonable in relation to the financial statements taken as a whole.

The financial statement disclosures are neutral, consistent and clear.

*Difficulties Encountered in Performing the Audit*

We encountered no significant difficulties in dealing with management in performing and completing our audit.

*Corrected and Uncorrected Misstatements*

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are trivial, and communicate them to the appropriate level of management. There were three uncorrected misstatements of the financial statements related to accrued vacation, accrued interest and the change in property tax deferred revenue. Management has determined, and we agree, that the effects of not recording the adjustments are immaterial, both individually and in the aggregate, to the financial statements as a whole.

We did not propose any adjustments due to audit procedures.

*Disagreements with Management*

For purposes of this letter, professional standards define a disagreement with management as a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report no such disagreements arose during the course of our audit.

*Management Representations*

We have requested certain representations from management that are included in the management representation dated October 29, 2013.

*Other Audit Findings or Issues*

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the governmental unit's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition of our retention.

*Supplementary Information*

With respect to the supplementary information accompanying the financial statements, we made certain inquiries of management and evaluated the form, content, and methods of preparing the information to determine that the information complies with accounting principles generally accepted in the United States of America, the method of preparing it has not changed from the prior period, and the information is appropriate and complete in relation to our audit of the financial statements. We compared and reconciled the supplementary information to the underlying accounting records used to prepare the financial statements or to the financial statements themselves.

This information is intended solely for the use of the Select Board and management of the Town of East Montpelier and is not intended to be and should not be used by anyone other than these specified parties.

Very truly yours,
