Hello Rosie,

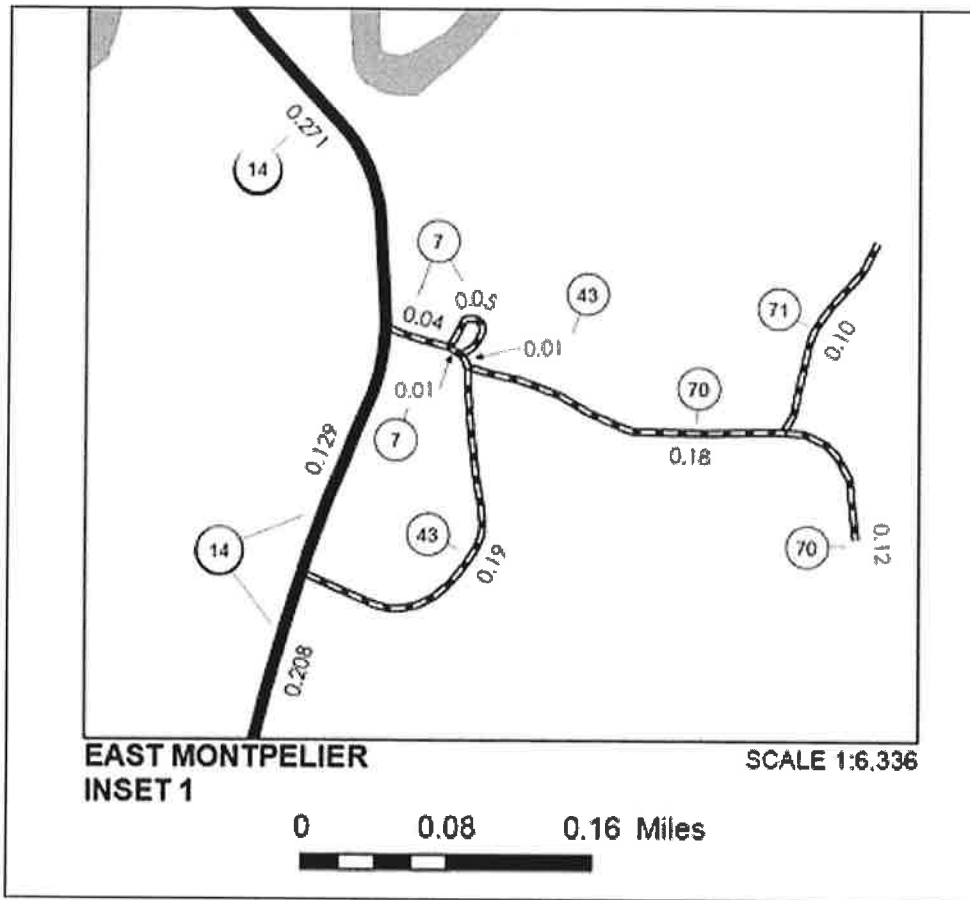

I'm not exactly sure who the most appropriate or available person to address this might be (Selectboard and/or Road Foreman), but could you see that this gets to such person/people, or provide me with their email addresses? Thanks!

It came to the attention of the VTrans Mapping Section that the mileage we have on record for TH-70 (as shown on the 2015 Town Highway Map, see detail below) was inconsistent with it's actual measured length. I found documents pertaining to TH-70 in our records, and believe that we may have incorrectly allocated the mileage from a single deed (see attached 1995 documents) across the two town highway (TH-70 and TH-71). TH-70 was measured by the Mapping Section in 2013, and was found to have a length of 0.26 mi. Although we do not have a field measurement for TH-71, please see the attached map showing the map-based lengths (in red, rounded to the nearest 100th of a mile) for each segment of TH-70 and TH-71. Note that the measured length matches the length of the mapped line.

Based on the attached map, the new lengths of TH-70 and TH-71 should be ^{0.26}0.28 mi and 0.13 mi, respectively. If you would like me to make sure that the attached map is consistent with the survey map mentioned in the attached documents from 1995, feel free to send me a copy. Alternatively, with an "go ahead" from the town, I could pre-load the change onto the 2018 Certificate of Highway Mileage that I will be sending out on January 2.

Thank you for your help keeping our data up to date and as accurate as possible,

Kerry
