4	I really don't get what your trying to do. If someone lives near a river they should be ready to abandon their home on a moments notice. You need to know a wind can destroy your place regardless of it's location. If the power goes out your pipes will freeze if you don't have some way to make heat. And if it snows 6 feet of heavy wet stuff you'll need a tractor to dig you out because your pickup truck plow won't work. But this is just normal stuff and not really worth getting all organized about. Oh, maybe someone could go around and point out that the giant tree in your neighbors yard will crush their house if it falls on it. Oh, wouldn't that be their insurance agent?	3/16/2019 12:08 PM
