My family and I have been living in East Montpelier since August of 2022. We love this amazing community and plan to stay here for generations. My wife Jada, our 7-year-old twins Niki and Julia, our two dogs Woody and Winona, and our two cats Ricky & Lucy are all happy here. I have a varied and rich experience in different fields, such as technology, management consulting, commercial construction, and real estate development, among others. I value diversity in ideas and backgrounds, as I think it leads to progress. I am also passionate about preserving our scenic environment while finding ways to grow and attract more people to our lovely community. I believe that having the right infrastructure, housing studies, and long-term town planning is essential for our development and well-being. I will keep supporting green and open spaces, protecting our environment, and finding ways to unite our community (through parks and recreation areas).

My open-mindedness and pragmatism will help me to consider all issues carefully and to promote the objectives of our community.

Thank you,

Nik Khosla
