TOWN OF
EAST MONTPELIER, VERMONT
SELECTBOARD

Nik Khosla (2024 – 2024)
Zoe Christiansen (2023-2024)
Scott Hess (2023-2025)
Carl Etnier (2022 – 2025)
Chair, Seth Gardner (2021 – 2024)

NOTICE

The East Montpelier Resilient Roads Committee and the Town Tree Warden, with the approval of the Selectboard, are moving forward with a roadside tree management project along Center, Sodom Pond, Haggett, Brazier and Lyle Young Roads to proactively remove ash trees and several other hazard trees in advance of the anticipated ash tree devastation by the Emerald Ash Borer. You can see the town's interim ash tree management plan and much more on the committee's effort to handle the EAB threat here: https://eastmontpeliervt.org/boards-commision/resilient-roads-committee/

The committee has developed a request for proposals (RFP) which will be sent out to potential contractors. Proposals are due 11:00 a.m. Friday, March 15, 2024. The trees targeted for removal by this project, most of which are in the town's road right-of-way, have now been flagged/marked. The affected landowners will be contacted to obtain agreement regarding the handling of the ash trees.

If you have any questions on this project, please contact Jeff Cueto, the committee chair, at: 802-223-5175 or ompompanoo@aol.com. Mr. Cueto and Town Tree Warden Paul Cate (802-223-6466) will reach out to landowners directly to assist with form completion upon request or if we don't hear from you.

Thank you,

Gina Jenkins
