

**East Montpelier EECBG DREAM Grant Amendment- Supplemental Award Questions
1/16/2026**

- 1. The specific budgeted activities in your existing grant agreement that would be supplemented with this funding OR your proposed NEW activity, that falls within the scope of allowed activities (see original RFP).**

Total Requested \$43,019.26 for New Activities:

- a. \$35,000 Municipal Energy Coordinator/consultant + Finance Lab -
A part-time local point person to write grants, integrate funding sources, and help residents weave and stack state, federal, and utility incentives, with a public facing dashboard.
- b. \$5,000- outreach and events
 - i. Generator workshop/s and training materials
 - ii. Postage for 4 town wide postcard mailings
 - iii. Town Wide Event for outreach
- c. \$3,019.26 - Workforce Capacity Planning
Coordination support for a local resident pursuing BPI certification and Efficiency Vermont approval, strengthening long-term local service capacity.

- 2. The amount of supplemental funds requested and activities to be completed. (NOTE: Any new activities should still fall under the categories/activities included in the last RFP – attached)**

Total Requested \$43,019.26 for New Activities:

- a. \$35,000 Municipal Energy Coordinator/consultant + Finance Lab -
A part-time local point person to write grants, integrate funding sources, and help residents weave and stack state, federal, and utility incentives, with a public facing dashboard.

 - iii. Town Wide Event for outreach
- c. \$3,019.26 - Workforce Capacity Planning
Coordination support for a local resident pursuing BPI certification and Efficiency Vermont approval, strengthening long-term local service capacity.

- 3. The minimum amount that would still meaningfully advance your project objectives (in case total requests exceed available funds)**
\$35,000, however we would make impactful use of any additional funds provided.

- 4. The outcomes you anticipate achieving with the supplemental funding.**
80% of homes weatherized in East Montpelier by 2030.
